AVAILABILITY:

QuantaCom uses part of Telstra's 3G, 4G, and 5G mobile network with a 4G coverage footprint of 97.9% and a combined 4G and 3G coverage footprint of more than 98.8% of the Australian population covering 1.62 million sq kilometres.

Unlimited national call and text value - with your monthly plan allowance you can make unlimited standard national calls to fixed and mobile numbers, including unlimited standard SMS and MMS, voicemail retrieval, and calls to 1800 and 13/1300 numbers.

This unlimited included value cannot be used for making calls and sending SMS/MMS to international numbers, directory services, satellite numbers, video MMS, Machine to Machine, eSIM capabilities or when roaming overseas. These will incur excess usage charges to your monthly bill. Calls and SMS/MMS to premium numbers (e.g. 19x/189x/VPN numbers), Sensis calls, or other content charges (including third-party charges) are barred.

Static IP addresses are not available for this service.

MONTHLY DATA TO SHARE:

These plans share data within Australia. If you have more than one eligible plan that data shared on the same account, the included monthly data allowance will combine into one data-sharing pool, which will be shared by all the eligible plans that share data on that account. If you use more than your included data, data usage on these plans and all services that share data with these plans will be slowed to a maximum of 1.5Mbps until the start of your next payment cycle, unless you purchase extra data. Slowed data speeds (maximum of 1.5Mbps) are suitable for general internet browsing and music streaming, however, some activities such as video streaming may see increased buffering and loading times. Any unused data expires at the end of each payment cycle. If you don't want to share data between your services, they will need to be on separate accounts. Data is counted in kilobytes and includes uploads and downloads.

Unlimited international call and text value - some plans as listed in the table below include unlimited calls and texts to international landlines and mobiles (unless otherwise indicated) to 15 countries: China, Germany, Greece, Hong Kong, India, Indonesia, Ireland, Malaysia, New Zealand, Singapore, South Korea, Thailand (Landlines only), United Kingdom, USA (Landlines only), and Vietnam. This call value cannot be used while roaming overseas.
